The Memorandum of Understanding (MOU) Work Sheet is a tool to support Community Transition Teams in the development or revision of their community based MOU. Teams can use the Work Sheet as a template for the development of the MOU, utilizing the sections in color to guide the format, process and discussion. As sections and procedures are agreed on and entered into the format, teams can delete the guiding text appearing in color and will have a document ready for signatures.

It is recommended that the components represented in this tool be discussed at least annually, at one of the periodic transition team meetings scheduled after the implementation of the agreement.

I. PURPOSE

The members of the La Mariposa Early Childhood Transition Committee acknowledge that partnership encompasses families, agencies and committee members. The La Mariposa Transition Team is committed to seamless transition of services to children with developmental delays, birth through five years of age, and their families. La Mariposa recognizes that collaborative efforts will maximize the use of public resources and avoid duplication of efforts while meeting regulatory requirements of individual agencies in serving children. In addition, we come together to collaborate on continuing a system of screening and referral and community health fairs to provide health and developmental screening, education and referral information to parents.

II. REQUIREMENTS IMPACTING THIS AGREEMENT

The federal and/or State transition laws are listed in the working procedures, timelines and responsibilities in transition process sections of this document.

III. DEFINITION OF TERMS

Early Intervention Services (Part C): any or all services that are designed to meet the developmental needs of each eligible child and the needs of the family related to enhancing the child's development. Early intervention services address one or more of the following areas of development: cognitive, physical, communication, social or emotional, and adaptive. Early Intervention services include: assistive technology, hearing services, developmental services (special instruction), family training, counseling and home visits, health services, medical services for diagnostic or evaluation purposes, nursing services, nutrition services, occupational therapy, physical therapy, psychological services, respite services, service coordination, social work services, speech language pathology services, transportation and related services, and vision services.

Eligible Child (Part C-early intervention services): means children birth to three years of age who reside in the state and meet the criteria within state regulations for "Developmental Delay", "Established Condition" or "At Risk for Developmental Delay".
Eligible Child (Part B-preschool special education and related services): means any child ages 3, 4, 5 who resides in New Mexico and who is determined to be a child with a disability and meets the Part B eligibility criteria, as defined by the New Mexico Technical Evaluation and Assessment Manual.

Evaluation (for Part C early intervention services): means the process through which a child's eligibility for early intervention services is determined. It involves a review of pertinent records related to the child's current health status and medical history; a determination of strengths, needs, quality of performance, and level of functioning of the child in each developmental area and an explanation of how the status in each of the developmental areas affects the child's overall functioning. A written report summarizing findings completes the evaluation.

Evaluation (for Part B preschool special education and related services): means the process through which a child is determined to be a child with a disability and eligible for special education and related services. This involves review of current information about the child provided by the parents, teachers, early interventionists, related services personnel, and other individuals knowledgeable about the child's abilities and present levels of performance. This may include, but by no means is limited to formal assessments of the child's functional abilities in each developmental domain. A written report summarizing findings completes the evaluation.

Free Appropriate Public Education or FAPE (Part B): a federal regulation, for children enrolled in the public school system, stating that special education and related services a) are provided at public expense, under public supervision and direction and without charge; b) meet the standards of the SEA including the requirements of 34 CFR Part 300; c) include preschool, elementary school, or secondary school education in the state; and d) are provided in conformity with an individualized education program (IEP) that meets the requirements of 34 CFR Part 300.340-300.350.

Head Start: means a program, funded under Title V of the Economic Opportunity Act of 1964, as amended, and carried out by a Head Start agency or delegate agency that provides ongoing comprehensive child development services.

Individuals with Disabilities Education Act (IDEA 2004): means a federal law that contains requirements for serving eligible children. Part C of IDEA refers to The Early Intervention Program for Infants and Toddlers with Disabilities. Part B of IDEA refers to Assistance to States for the Education of Children with Disabilities ages 3 through 21.

Individualized Education Plan (IEP): means a written statement for a child with a disability that is developed, reviewed and revised in a meeting in accordance with requirements of IDEA, Part B.

Individualized Family Service Plan (IFSP): the written plan for providing early intervention services to an eligible child and child's family. The plan must be developed jointly by the family and appropriate qualified personnel involved in the provision
of early intervention services and include the identification of supports and services necessary to enhance the family’s capacity to meet the developmental needs of the eligible infant or toddler. The plan must be developed in accordance with the requirements of IDEA, Part C.

**Interagency Agreement:** means a document signed by authorized representatives of at least two agencies outlining mutually agreed upon responsibilities to perform certain duties under specified conditions. Interagency agreements include Joint Powers Agreements, Memoranda of Understanding and Memoranda of Agreement.

**Least Restrictive Environment (LRE):** An appropriate, educationally beneficial placement for a child with a disability that most closely approximates where the child, if not disabled, would be educated.

**Local Education Agency (LEA):** means a local public school district that is subject to statutes, regulations and policies administered by the State Department of Education.

**Multidisciplinary Team Report (MDT) now Educational Determination Team (EDT):** A report written by qualified professionals, teachers and parents who have reviewed all existing evaluation data, information provided by parents, current observations and present levels of performance to determine if the child is eligible to receive services according to New Mexico State guidelines.

**Parent:** means a natural or adoptive parent of a child; a guardian; a person acting in the place of a parent (such as a grandparent or stepparent with whom the child lives or a person who is legally responsible for the child’s welfare) or a surrogate parent who has been assigned in accordance with state regulations. A foster parent may act as a parent under the Act if the natural parents’ authority to make the decisions required of parents has been terminated under state law and the foster parent has an ongoing, long-term parental relationship with the child, is willing to make decisions required of parents under the Act and has no interest that would conflict with the interests of the child.

**Professional Judgment:** means a process by which a multidisciplinary evaluation team organizes and weighs information about a child. This information includes impressions regarding skills, abilities, weaknesses in developmental processes, emotional and temperamental patterns as well as more traditional testing information. While individual judgments are part of the team’s decision-making process, no single person can determine eligibility via professional judgment. It is a team decision. A team consensus may be one way to determine a preschool aged child’s eligibility for special education and related services in the category of "Developmentally Delayed", and other eligibility categories.

**School Year:** means the dates established by LEA for its schools to be in session during a given academic year.
**Service Coordination (Part C):** means services and activities performed by a designated individual to assist and enable the families of children from birth through age three years to access and receive early intervention services.

**Family Service Coordinator (Part C):** means the person responsible for the coordination of all services and supports listed on the IFSP and ensuring the delivery of services in a timely manner. The Family Service Coordinator (FSC) facilitates periodic reviews of the IFSP and ensures that a transition plan is developed at the appropriate time. The FCS facilitates the transition process to ensure a smooth and effective process.

**State Supported Schools:** means a state supported public program confirmed as such in the State Constitution, such as the New Mexico School for the Blind and Visually Impaired and the New Mexico School for the Deaf.

**Transition:** means the process for a family and eligible child of moving from one service, location, or program to another. This process includes discussion with and training of parents regarding future placements and other matters related to the child’s transition; procedures to prepare the child for changes in service delivery, including steps to help the child adjust to and function in the new least restrictive and most appropriate educational setting; and with parental consent, the transmission of information about the child to a program into which the child might transition to ensure continuity of services, including evaluation and assessment information required and copies of IFSPs that have been developed and implemented.

**Transition Conference:** means the required conference convened at least 90 days before the child is eligible to transition from early intervention services to local preschool settings (see Transition for further information).

**IV. IMPLEMENTATION OF AGREEMENT**

Copies of this Memorandum of Understanding will be provided to each entity listed as a member of the La Mariposa Transition Team. Each Family Service Coordinator of EnSueños Y Los Angelitos Development Center, the early intervention agency, will be given a copy of the La Mariposa MOU so they may inform and train the families they work with on the regulations and procedures for the transition of their children from Part C to other entities within the community.

The LEAs will make available the MOU to all those who are working with the children who are transitioning into Part B.

**V. MONITORING AND EVALUATION OF THE AGREEMENT**
The La Mariposa Transition Team will meet annually to evaluate the effectiveness of the procedures used in the agreement.

VI. INTERAGENCY DISPUTE PROCESS

If there are disputed items identified they will be discussed at the La Mariposa Transition Team annual evaluation meeting. See above.

VII. DURATION

The MOU will be reviewed annually as noted in the La Mariposa meeting minutes. This MOU is valid for four years unless the committee agrees it needs to be revised.

INITIAL COMPREHENSIVE EVALUATION FOR PART B

- Part B team reviews current available assessment data (including Part C assessments)
- Part B team determines additional data and assessments needed.
- Part B team conducts initial comprehensive evaluation process in all areas of suspected disability

6.31.2.10

E. Procedural requirements for the assessment and evaluation of culturally and linguistically diverse children.
   1. Each public agency must ensure that tests and other evaluation materials used to assess children are selected, provided and administered so as not to be discriminatory on a racial or cultural basis and are provided and administered in the child’s native language or other mode of communication, such as American sign language, and in the form most likely to yield accurate information on what the child knows and can do academically, developmentally and functionally, unless it is clearly not feasible to select, provide or administer pursuant to 34 CFR Sec. 300.304(c)(1).
   2. Each public agency must ensure that selected assessments and measures are valid and reliable and are administered in accordance with instructions provided by the assessment producer and are administered by trained and knowledgeable personnel.
   3. Each public agency must consider information about a child’s language proficiency in determining how to conduct the evaluation of the child to prevent misidentification. A child may not be determined to be a child with a disability if the determinant factor for that eligibility determination is limited English proficiency. Comparing academic achievement results with grade level peers in the public agency with similar cultural and linguistic backgrounds should guide this determination process and ensure that the child is exhibiting the characteristics of a disability and not merely language difference in accordance with 34 CFR Sec. 300.306(b)(1).
   4. Each public agency must ensure that the child is assessed in all areas related to the suspected disability.
   5. Policies for public agency selection of assessment instruments include:
      (a) assessment and evaluation materials that are tailored to assess specific areas of educational need; and
      (b) assessments that are selected ensure that results accurately reflect the child’s aptitude or achievement level.
   6. Public agencies in New Mexico shall devote particular attention to the foregoing requirements in light of the state’s cultural and linguistic diversity. Persons assessing culturally or linguistically diverse children shall consult appropriate professional standards to ensure that their evaluations are not discriminatory and should include appropriate references to such standards and concerns in their written reports.

6.31.2.11 (A) (3)

To ensure effective transitioning from IDEA Part C programs to IDEA Part B programs, each public agency must conduct a full and individual initial comprehensive evaluation at no cost to the parent and in compliance with requirements of 34 CFR Secs. 300.300, 300.301, 300.302, 300.304 and 300.305 and other department rules and standards before the initial provision of Part B special education and related services to a child with a disability.

(a) The initial comprehensive evaluation process shall be conducted in all areas of suspected disability.
### Questions To Consider

- Who from the LEA is responsible for conducting the initial comprehensive evaluation in all areas of suspected disability?
- How will a group of qualified professionals from the LEA review existing information provided by FIT?
- How will the LEA evaluation team use FIT information in supporting Part B eligibility determination?
- How will the parent have input?
- If additional data and assessment are needed, how will the LEA coordinate activities?
- If needed, how will NMSBVl and NMSD be involved?
- What is FIT's role in the process?
- When and where is the eligibility determination meeting held?
